II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

The State of New Hampshire's primary K-12 education funding formula (Adequacy Aid) is calculated based on cost factors and is not controlled by appropriation level. SFSF was used to keep LEA funding at the level it would have been had the severe economic downturn not occurred. SFSF arrived just in time to avoid the need for the Legislature to revisit the formula and reconsider funding levels. Without SFSF, reductions in both State and/or local support of schools might have been a possibility, but the potential scope and magnitude can not be estimated. LEA's in the State of New Hampshire have generally used Education Stabilization funds for the salaries and benefits of teachers and other LEA employees. The intent was to ensure that elementary and secondary education funding in the State of New Hampshire remained consistent with pre-economic downturn levels on a per pupil basis.

Please update for the new timeframe:

All funds were expended prior to October 1, 2010.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$0.00
Contracts for construction, modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$0.00

II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

The \$ 3 million from State Fiscal Stabilization Fund (SFSF) – Education, provided to the University System of New Hampshire (USNH), was used to replace University of New Hampshire (UNH) state general appropriation funding. Accordingly, the amount received was distributed to UNH and was used to support general instruction and administrative salaries and wages. The \$ 1,087,521 from State Fiscal Stabilization Fund (SFSF) – Education, provided to the Community College System of New Hampshire (CCSNH), was used to replace state general appropriation funding. Accordingly, the amount received was distributed to the seven Community Colleges and the Central System Administrative Office to pay for electricity and equipment. During the year, CCSNH enrollment increased significantly and certain fixed costs increased as well. The SFSF – Education funds were crucial to allow CCSNH to provide a consistent level of service to CCSNH students. The funds made possible a level amount of CCSNH operating funds based on the prior fiscal year.

Please update for the new timeframe:

All funds were expended prior to October 1, 2010.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Student financial assistance:	\$0.00
Contracts for modernization, renovation, or repair projects:	\$0.00

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Please update for the new timeframe:

ARRA oversight services continued through September 30, 2011.

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

Besides providing SFSF - Education funding, no formal action was taken by the State of New Hampshire to limit increases in tuition and fees imposed by public IHE's for in-State students. However, IHE's that did receive SFSF - Education money did acknowledge that the receipt of this SFSF - Education funding allowed them to have smaller increases in tuition and fees than they would have had, if this funding had not been provided.

IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

State Fiscal Stabilization Funds (SFSF) allowed the State of New Hampshire to fund over \$160,156,433 of education aid to Local Education Agencies (LEA's) that typically would have been funded by state education trust funds. In addition, SFSF funds supported \$4,087,521 of state assistance to public Institutions of Higher Education (IHE's) and \$36,246,276 to support general government functions that typically would have been funded by state general funds. It is not possible to accurately determine if the absence of SFSF funds would have resulted in expenditure reductions or any tax increases, since that decision would involve negotiations with the State of New Hampshire House and Senate. During State Fiscal Year 2010, when New Hampshire expended the majority of its SFSF funds, combined general and education trust fund revenues and expenditures were approximately \$ 2.4 billion.

Please update for the new timeframe:

V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated

to have been saved or created.

VI. Progress in Advancing Education Reform

A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

In August of 2010, all LEAs with more than one school per grade level provided a data table with school-level teacher placement and retention information (HQT status, years of experience and certification method). If a table revealed a disparity between schools, the LEA was required to submit a multi-year analysis of staffing and a plan for correcting the inequity.
